

AM Products- Cartridge Magazine Use Guide

Accurate-Mag Products cartridge magazines are designed for precision bolt action rifles and comply with all RCMP-CFP regulations, our patented products are currently used by many NATO, US Military and Law Enforcement agencies in M24, M40, XM2010 and PSR type weapons. None of our cartridge magazine products have a capacity of over 10 rounds of ammunition.

Commercially our cartridge magazine products are used by many US OEM Manufacturers that export to CA:

RUGER FIREARMS – All Scout Rifle Models

REMINGTON ARMS – All DBM models and all Military Products XM201-PSR

SAVAGE FIREARMS- ALL BA Series rifles and Precision Sporter

COLT FIREARMS – M2012 and COLT-COOPER Models

Range Master Precision Arms UK – All DBM Models

Ashbury International – All DBM rifle chassis models

Accuracy International LTD UK – Interchangeable through STANAG-MIL SPEC requirements

Accurate-Mag Rifle Systems – All Models

Christensen Arms – All DBM Models

McMillan Firearms – All DBM Models

* This list does not include roughly 50 other smaller makers and brands that use our products if a complete listing is available upon request.
